STUDYING REASONS FOR DEVIATION FROM RBI'S Q1 FORECAST: DAS

RBI to minimise growth sacrifice

Banks should raise
 more capital as the
 global situation is very
 volatile, says governor

FE BUREAU
 Mumbai, September 2

THE RESERVE BANK
 of India (RBI) will focus
 on minimising the
 growth sacrifice
 resulting from the
 tightening of monetary
 policy, governor
 Shaktikanta Das said on
 Friday.

In an interview with a
 business channel, Das
 said, "Our focus will be
 to minimise the growth
 sacrifice. Under the
 present circumstances,
 global factors will be
 responsible to a greater
 extent in the context of
 both inflation and
 growth."

Das said that while
 there is a view that
 advanced economies
 may go into a recession,
 the situation will have
 to be watched, for
 now. At the same time,
 a global slowdown

India because
 exports have an
 important role to
 play in the country's
 growth. Similarly,
 imports could affect
 inflation, he added.

The governor said
 that on the domestic
 front, the agriculture
 sector is doing well,
 and monsoon
 rainfall is now in
 excess. The shortfall
 in the net sowing
 area has also been
 closed to some
 extent and now

stands around 1-1.5%.
 Other sectors like
 industry and services
 have also been
 performing well and
 credit growth is
 strong. High-frequency
 indicators suggest
 that economic
 activity in India is
 resilient, Das said.

However, he
 acknowledged that
 the 13.5% gross
 domestic product
 (GDP) growth for
 Q1FY23 was lower
 than the central bank's
 estimate of 16.2%.

Das said the RBI
 is studying the
 reasons for the
 deviation from the
 forecast and has
 identified a few
 areas, but declined
 to share further
 details. "Once we
 have made a
 detailed investigation
 of the reasons,
 we can discuss them
 in the next
 monetary policy," he
 said.

India's strong
 forex reserves are
 a solid backbone
 for the domestic
 economy, Das said,
 adding that the

 as well as foreign
 investors. "In any

 we are better

● GUIDELINES BRING RELIEF TO COMPANIES

Norms for prosecution on GST evasion eased

Action to be taken on evidence of tax evasion above ₹5 crore

FE BUREAU
New Delhi, September 2

AVAILABILITY OF ADEQUATE evidence of tax evasion of over ₹5 crore will trigger criminal prosecution against offenders, the goods and services tax (GST) investigation wing of the Central Board of Indirect Taxes and Customs (CBIC) said in guidelines issued on Friday.

The guidelines, which seek to put in adequate safeguards before the launch of prosecution, could give relief to the industry and businesses.

"Prosecution should normally be launched where the amount of tax evasion, or misuse of ITC (input tax credit), or fraudulently obtained refund concerning offences specified under sub-section (1) of section 132 of the CGST Act, 2017 is more than (₹5 crore)," it said in a circular.

However, this monetary threshold will not be applicable in the case of habitual evaders or in cases where arrests have been made at the time of the investigation.

"A company/taxpayer would be treated as a habitual evader if it has been involved in two or more cases of confirmed demand (at the first adjudication level or above) of tax evasion/fraudulent refund or misuse of ITC involving fraud, suppression of facts, etc, in the past two years such that the total tax evaded and/or total ITC misused and/or fraudulently obtained refund exceeds ₹5 crore. DIGIT database may be used to identify such habitual evaders," the CBIC said.

Before launching prosecution, recommending authority must consider various factors like the nature

No prosecution to be launched...

■ Only because demand has been confirmed in adjudication
■ In offences of technical nature or difference of opinion
■ Against all directors of a company

Prosecution if...

■ The tax evasion involved is over ₹5 crore

■ Only after obtaining sanction from the prescribed authority

The guidelines issued by CBIC would bring relief to the industry at large as it ensures that prosecution cannot be initiated on technical and interpretational issues...

SAURABH AGARWAL,
TAX PARTNER, EY

and gravity of the offence, the quantum of tax evaded or ITC wrongly availed, or refund wrongly taken and the nature as well as the quality of evidence collected.

It said the prosecution should not be filed merely because demand has been confirmed in adjudication proceedings or cases of technical nature or difference of opinion.

It also said that prosecution should not be launched against all directors of the company, rather it shall be launched against only persons who oversee the day-to-day operations of the company.

"The guidelines issued by CBIC would bring relief to the industry at large as it ensures that prosecution cannot be initiated on technical and interpretational issues. The added responsibility requiring thorough investigation and collation of adequate evidence by the department before launching prosecution would help in reducing litigation," said Saurabh Agarwal, tax partner, EY.

A prosecution complaint can

only be filed only after obtaining the sanction of the principal commissioner/commissioner of CGST or principal additional director general/additional director general of the directorate general of GST Intelligence.

According to the guidelines, the prosecution should be taken immediately upon completion of adjudication proceedings. Detailed procedures and guidelines have been prescribed for authority relating to sanctioning prosecution or withdrawing prosecution and general guidelines to be adhered to like taking charge of all documents, monitoring prosecution cases at monthly intervals, etc.

Principal commissioner /commissioner should give an offer to a person to compound the prosecution under Section 138 of the CGST Act.

Where complaints have not been filed and sanctions received before instruction, sanctioning authority should re-consider the sanction in light of these instructions, it said.

SC gives finmin 30 more days to open GST common portal

FE BUREAU
New Delhi, September 2

THE SUPREME COURT on Friday gave the finance ministry further extension of 30 days for opening of the GST common portal. It also directed the GSTN to open the portal for 60 days from October 1 till December 31 so as to "give full effect" to its July 22 order that had allowed taxpayers to claim accumulated ITC accrued in the pre-GST indirect tax regime in 60 days ending October 31.

A Bench led by Justice SA Nazeer accepted the finance ministry plea that sought extension of time. "In view of criticality of revenue collection for the government... only emergency changes in the IT system are carried out and in general deploying new functionality such as TRAN-1 is avoided (period of 7th to 24th every month IT changes are avoided). This leaves GSTN with deployment window from 25th of a month to 6th of every month in every cycle," the ministry stated.

According to the government, pursuant to the SC order, the sequence of events had changed in TRAN 1 and TRAN 2 filings and this now involves a different business process in certain aspects and the new development is necessary both at front office (taxpayer facing front) and back office (tax officer facing front). Further many changes have taken place in the GST system over the last five years which have to be kept in view to ensure the new IT development is consistent with the current state of the IT system and in line with the SC order, Additional Solicitor General R Venkataraman argued.

Goyal to attend IPEF meeting in US next week

Commerce minister to meet USTR & trade secy, huddle with tech firms to woo investment in chip making

FE BUREAU
New Delhi, September 2

COMMERCE AND INDUSTRY minister Piyush Goyal will attend the crucial Indo-Pacific Economic Framework (IPEF) ministerial meeting and huddle with top executives of select American companies and industry bodies to woo investments — especially in the semiconductor segment — during his six-day visit to the US from September 5.

It will be the first in-person ministerial meeting of the IPEF since its launch by US President Joseph Biden on May 23. The meeting is expected to expedite the process of firming up concrete goals of the US-led initiative, which is viewed by some analysts as a mechanism to counter the aggressive and non-transparent trade and economic policies of China.

Goyal is scheduled to meet US trade representative Katherine Tai and commerce secretary Gina M Raimondo on the sidelines of the IPEF meeting to further deepen trade and investment ties.

He will also attend the India-US Strategic Partnership Forum conference.

The two-day IPEF meet, which will be held in Los Angeles from September 8, will focus on four pillars relating to trade, supply chains, clean economy and fair economy.

During the course of his visit to San Francisco and Los Angeles, Goyal will meet investors across sectors, especially electronics, technology, and fintech. He will also call on American firms to take advantage of India's \$10-billion incentive plan for manufacturing semiconductors here, according to official sources.

Interactive sessions have also been lined up with key players in the start-

Commerce minister Piyush Goyal

up community, such as venture capitalists, angel investors, and unicorns.

"The visit would focus upon emphasising the attractiveness of India as the most preferred investment destination," according to a commerce ministry statement.

It seeks to strengthen economic partnership among participating countries with the objective of enhancing resilience, sustainability, inclusiveness, economic growth, fairness and competitiveness in the region. The IPEF comprises 14 members — Australia, Brunei, Fiji, India, Indonesia, Japan, Korea, Malaysia, New Zealand, Philippines, Singapore, Thailand, Vietnam and the US.

The US emerged as India's top trading partner last fiscal, beating China. Trade between the US and India stood at \$119 billion in FY22, having jumped from \$80.5 billion in the previous year. Similarly, the US is the third-largest source of foreign direct investment inflows into India.

NTPC slows coal imports as stocks improve

Imports in FY23 seen at 12 MT

SURYA SARATHI RAY
New Delhi, September 2

WITH IMPROVEMENT in domestic coal supplies, state-run power producer NTPC may go slow on its fuel imports plan. While the company, the country's largest power producer, has already contracted to import 10 million tonne (MT) of coal so far this year under a power ministry directive, it may import only another 2 MT of the fuel in the remainder of the fiscal, according to company sources.

Yet, coal imports this fiscal will be about five times last year's level. The imported coal will be blended with the domestic fuel to boost supply, sources in the company said.

As per the Central Electricity Authority (CEA) report, with around 11.46 MT coal stocks now, NTPC is not facing any coal shortage, as of now. The stock was just around 3 MT at the same time in the last fiscal year.

NTPC's total coal requirement for the current fiscal is estimated to be 247 MT. In its annual report,

NTPC said that the requirement will be met through long-term fuel supply agreements from Coal India and SCCL, bridge linkage, captive mines, and e-auction apart from imports.

NTPC had imported 2.47 MT of coal last fiscal and just 0.92 MT in the previous fiscal. It received 196 MT coal in 2021-22 and 170 MT in

2020-21. In the first quarter of the current fiscal, it imported 4.33 MT of coal compared with just 0.47 MT in the same period last fiscal.

The company's captive mines produced 4.24 MT in the first quarter of the current fiscal which is 60% higher than the previous year. In the last fiscal, its coal mines produced 14 MT of dry fuel.

For meeting the increased generation, the ACQ needs to be enhanced by CIL.

Around 20 gigawatts (GW) of capacity in the country is designed to run on imported coal. These capacities, on an aggregate basis, is running at a PLF of around 34%. If all these imported coal-based stations run at full capacity, other generators such as NTPC, DVC, and state gencos like Tamil Nadu, Haryana, Punjab, Maharashtra, and Andhra Pradesh may not be required to import coal for blending.

● SHARP FALL IN INTERNATIONAL PRICE

Steel prices may remain under pressure

FE BUREAU
New Delhi, September 2

ALREADY DOWN BY 26% in the current fiscal so far, steel prices are likely to remain under pressure over the near term in line with the sharp price fall in the international market, rating agency ICRA said on Friday.

The price fall in the international market is mainly because of the subdued demand, particularly from China which accounted for 52% of global steel demand. Russia-Ukraine war and policy rate hikes by Central banks are also impacting demand across the world. A recovery is also not in sight in the near-term.

"India is the only bright spot in the

pack for now, with our crude steel production growing by a healthy rate of 8.9% in April-July of the current fiscal. The Central and state government's combined capex spends is budgeted to increase by over 22% in the current fiscal, and we therefore expect domestic steel demand to grow at a healthy rate of 7-8% in FY23, making India one of the fastest

growing large steel markets globally this year," Jayanta Roy, Senior vice-President & Group Head, Corporate Sector Ratings, ICRA.

However, while domestic steel demand growth remained strong at 10.6% in April-July of the current fiscal, domestic spot hot rolled coil (HRC) prices corrected by a steep 26% in FY23 so far, reaching ₹56,700/tonne in end-August 2022, levels last seen in March 2021. "This has largely been influenced by the 30-45% correction in international steel prices in the current fiscal. We expect domestic steel prices to remain under pressure over the near term, since domestic steel prices cannot be insulated from the trends emerging in global steel markets," Roy said.

Another Indian enters America Inc's corner office

It's not merely in the boardrooms that Indians are making their presence felt. At Alphabet, the parent company of Microsoft, several in the top team are Indians.

An FMCG industry veteran, Narasimhan will relocate to Seattle from London and will spend some time working closely with interim CEO Howard Schultz, before assuming the leadership role and joining the Starbucks board on April 1, next year.

The world's biggest coffee chain posted full-year revenue growth of 23.6% in 2021 to \$29.1 billion, 9.8% higher than the \$26.5 billion earned in 2019. Sixty-two percent of Starbucks' stores are now located in the US and China, with the company operating 15,450 and 5,360 stores in each market respectively.

After studying at University of Pune's College of Engineering, Narasimhan went to University of Pennsylvania's Wharton business school. The executive worked for global management consulting firm McKinsey from 1993 to 2012, progressing to become the director and location manager of its office

in Delhi. Narasimhan, who has also worked at PepsiCo, comes with nearly 30 years of experience leading and advising global consumer-facing brands. At PepsiCo, he was global chief commercial officer responsible for the company's long-term strategy and digital capabilities.

At Reckitt he led a successful rejuvenation of the company's strategy, execution and foundational capabilities, said the Anglo-Dutch multinational FMCG giant, which owns popular household brands such as Dettol, Lysol, Harpic, Durex, Veet and Strep-sils.

Govt links funds release to usage

Thanks to the calibrated release of funds, buoyant tax receipts and steps to rationalise revenue expenditure, the Centre is unlikely to raise its gross market borrowing in FY23 from the budgeted level to fund the fiscal deficit. This is despite large additional spending commitments on subsidies and the revenue loss from tax cuts on auto fuels announced in May.

The Centre is budgeted to spend ₹11.8 trillion through central sector schemes and another ₹4.43 trillion in the centrally sponsored schemes in FY23. The Budget estimate for total expenditure is ₹39.4 trillion in FY23.

TCS newcomers excluded from hikes

Of late, many IT companies have either deferred or cut the variable pay for the employees. While Infosys plans to roll out 70% of variable pay for Q1FY23, Wipro has reportedly deferred payments for its mid- and senior-level employees.

Earlier, TCS denied media reports on deferment in variable pay and said that over 600,000 of its employees will receive the full

trillion, against the budgeted ₹14.95 trillion, citing a switch programme conducted on January 28. The second half borrowing calendar is expected to be announced by September end.

"We don't think there is any requirement of additional borrowings this year. However, it will be our effort to rationalise revenue expenditure at the time of revised estimate as subsidies are going to go up," an official said.

With the implementation of the Central Nodal Agency (CNA) for central-sector schemes, Single Nodal Agency (SNA) for centrally-sponsored schemes and Treasury Single Account (TSA) for autonomous bodies, the Centre will be able to track fund flows

variable component for the first quarter.

"We have come across completely incorrect reports on our compensation. Variable pay is either paid in month one or month two as per the normal process and there is no delay in this process. 100% variable pay is being paid for Q1," TCS said in a statement.

till the end-users.

"The fund releases in Q1 this fiscal could have been higher if we had not implemented the scheme. Now, we clearly know how much funds are lying with an implementing agency at a given time. Next installment can't be booked until the previous releases have been used," the official said.

Even as it maintained the pace of capital expenditure, the Centre reined in revenue spending in the later part of Q1FY23, with overall expenditure growth declining from 23.7% on year in May to 5.4% in June.

Lower floating of funds will help the Centre calibrate borrowings and is estimated to save nearly ₹10,000

crore annually in interest costs, according to a source.

The Centre had budgeted to restrict revenue expenditure at ₹31.94 trillion in FY23, down 0.2% from the actual spending of ₹32.01 trillion in FY22. It intended to rein in the fiscal deficit at 6.4% of GDP from 6.7% last fiscal. However, the Budget calculations went haywire after the Ukraine war caused massive disruptions in the global supply chains, leading to a spike in international commodity prices. This, in turn, forced the government to raise the fertiliser subsidy from ₹1.05 trillion in BEFY23 to ₹2.15 trillion (it could be even higher at ₹2.25 trillion), on top of ₹80,000 crore additional spending on account of the extension of the free ration scheme by six months through September.

The cut in the fuel excise duty in May to tame inflation may lead to about ₹85,000 crore loss in excise revenues in FY23, which will further exert pressure on the government's balance sheet.

"However, a large part of this would be absorbed by higher-than-estimated non-excite taxes, as well as the windfall tax on domestic crude oil production and export duties on petroleum products, limiting the extent of the overshoot in the government's fiscal deficit in FY23 rela-

tive to the Budget estimates at ₹30,000-80,000 crore," rating agency Icria chief economist Aditi Nayarsaid.

"Unless the free food grain scheme (Pradhan Mantri Garib Kalyan Ann Yojana) is extended beyond September 2022, we do not expect the fiscal deficit to exceed 6.4% of GDP based on a nominal GDP of ₹272.1 trillion," she added.

Adhere to digital loan norms by Nov 30: RBI

The August 10 guidelines require REs to ensure that all loan servicing and repayments are executed by the borrower directly into the RE's bank account without any pass-through account or pool account of a third party. REs will also have to ensure that no disbursements are made to a third-party account, including the accounts of LSPs and their DLAs.

The only exceptions to this would be disbursements covered exclusively under statutory or regulatory mandates, flow of money between REs for co-lending transactions and disbursements for specific end users, provided the loan is disbursed directly into the bank account of the end-beneficiary.

● TREND SIGNALS ECONOMIC RECOVERY

Demand for MGNREGS work falls to 34-month low in Aug

Govt also seems to be curbing its spending on the job scheme

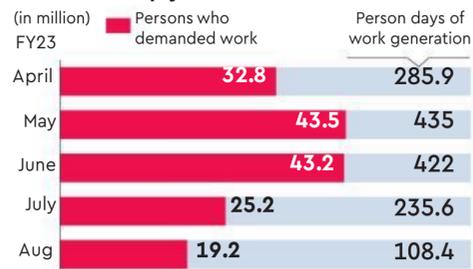

FE BUREAU
New Delhi, September 2

DEMAND FOR WORK from individuals under Mahatma Gandhi National Rural Employment Scheme (MGNREGS) has been on the wane since July this year and fell to its lowest in 34 months to 19.2 million persons in August, mirroring an improvement in economic activities in the urban centres.

However, an even sharper decline in the supply of the jobs under the popular scheme—person days (work) generated in August was a fourth of that in May—indicate that the authorities have curbed spending on the scheme. Paucity of funds could be one of the reasons for suppressed demand, one labour activist said. Of the ₹73,000 crore budgetary allocation for the scheme, already ₹48,275 crore has

Demand for rural employment declines sharply since June

been spent as on September 2. The rural development ministry may have to seek an additional outlay for the

scheme in the supplementary budget for 2022-23.

The scheme's mandate under the MGNREG Act,

2005, is to provide at least 100 days of 'wage employment' in a financial year to every rural household whose adult member volunteers to do unskilled manual work. However, while an average of only 50.07 days of work was provided to such rural households in 2021-22; so far in the current fiscal, it stands at 32.2 days.

This is despite the fact that only 46 million households have worked for the scheme so far compared with entire last fiscal's 72.6 million. Also only 63.2 million individuals workers have worked this year so far compared with 106.2 million in the last fiscal.

Against a total of 3.63 billion person days of work generation in the entire last fiscal, 1.48 billion person days of work have been generated thus far in the current year under the scheme.

Some analysts are of the view that the authorities are going slow on reporting the demand at the ground level, given that more than 66% of the Budget allocation for the current fiscal has already been spent.

Scindia asks states to lower VAT on aviation fuel

Jyotiraditya Scindia

FE BUREAU
Pune, September 2

UNION CIVIL AVIATION minister Jyotiraditya Scindia on Friday called for a reduction in value added tax (VAT) on aviation turbine fuel by states. Only 16 of the 24 states had responded positively to this proposal, Scindia said.

Speaking at the Maharashtra Chambers of Commerce, Industries and Agriculture in Pune, Scindia said aviation turbine fuel accounted for 40% of the airlines' cost structure.

When he took over the aviation ministry, 12 states charged 1-4% VAT on ATF and 24 states/UTs charged 20-30%. At present, only eight states are charging VAT at 20-30% and 16 states had moved to the 1-4% VAT rates, he said.

Scindia said at a time when ATF prices had gone up from ₹53,000 per kilo litre to ₹1,41,000 per kilo litre, paying 20-30% VAT would not be viable for airlines. He urged Maharashtra, which was among the states charging high tax, to step forward and lower VAT as the whole country was moving in that direction and the traffic would move to the other states.

AMID ROW OVER DURGA PUJA GRANT... West Bengal seeks faster release of Central funds

INDRONIL ROYCHOWDHURY
Kolkata, September 2

WEST BENGAL CHIEF minister, Mamata Banerjee's decision to provide the state's over 40,000 registered Durga Puja committees a grant of ₹60,000 each has brought the issue of state's weak fiscal health into sharp focus.

Banerjee's announcement, if implemented, would translate into an outgo of just ₹258 crore to celebrate 'Durga Pujan Kolkata' being inscribed by Unesco as the Intangible Cultural Heritage of Humanity, which according to the chief minister, would also help in promoting tourism and bring about social upliftment.

However, state government employees' unions, especially those belonging to the Opposition camp, have hit the streets protesting against the grant, given the hike in their dearness allowance has been held back since 2019 citing financial crunch. According to the Economic Review 2021-22, published by the state government's department of planning and statistics, West Bengal's debt stood at 37.5% of the gross state domestic product in 2020-21, much higher than the 20% limit set for states' debt by the NKSingh-led FRBM review committee in its 2017 report. Clearly, West Bengal is among the most indebted states in the country.

The state has to repay debt of ₹60,401 crore in FY 23. The state's fiscal deficit has been pegged at 3.64% of the GSDP in FY23 and revenue deficit at 1.65%. Though Covid-19 has

THE STATE SEEKS ₹1 trillion from Centre under various heads, including GST aid, revenue deficit grants etc

resulted in a deterioration of the financial health of both the Centre and states due to the additional healthcare and welfare expenditures, West Bengal's fiscal situation is a cause for concern. The cessation of the GST compensation from July has amplified the concerns over revenue flows, although robust GST collections over the recent months have come as a

relief. Also, the Centre has fast-tracked tax devolution to states and started releasing the capex loan announced in the Budget. In a recent letter to Prime Minister Narendra Modi, Banerjee wrote that the central government's outstanding dues to the state, as on July 31, 2022, were ₹1,00,968.44 crore. This amount included GST dues, revenue deficit grants.

Deficit in paddy sowing narrows to 5.6% from 12% in three weeks

SANDIP DAS
New Delhi, September 2

THE DEFICIT IN paddy sowing has declined in the last three weeks because of revival of monsoon rains in parts of key growing regions of Uttar Pradesh, Bihar and West Bengal. As per the data released by the agriculture ministry on Friday, the deficit in paddy sown regions has reduced to 5.6% against the same period last year, while the decline was 12% for the week ended August 12.

Area under paddy in West Bengal, the largest rice-producing state, was down by more than 10.5% on year on Friday while three weeks ago the deficit was 31%.

Paddy sowing has been hit mainly because of severe deficiency in monsoon rainfall against the benchmark in key states—Uttar Pradesh (44%),

Kharif crop sowing

Bihar (-38%) West Bengal (-18%) and Jharkhand (-26%).

The paddy acreage has declined by close to a million hectare (mh) in Jharkhand, 0.44 mh in West Bengal, 0.26 mh in Uttar Pradesh and 0.21 mh in Bihar. Lower paddy sowing has raised concern about rice production for the 2022-23 crop year (July-June) which would decline by 6-10 million tonne (mt) less than 2021-22 crop

year's record level of 129 mt, according to trade estimates. There are also concerns about a possible rise in prices of rice if kharif production declines as the season accounts for around 80% of the country's rice production.

Overall kharif crops—paddy, pulses, oilseeds, cotton and nutri-cereals etc have been sown in 106.9 mh as on Friday which is decline of 1.2% against

108.2 mh reported a year ago. Officials said that the kharif sowing activities have been largely completed across the country.

Overall paddy sowing area across the country was reported at 38.3 mh which was 5.6% less than year ago. Average annual area under kharif paddy between 2016-17-2020-21 was 39.7 mh.

While oilseeds such as soybean and groundnut have been sown in 18.8 mh which is marginally less than last year. Pulses have been sown in 4.3% less area than last year.

India imports about 56% of its edible oil requirement while around 15% of domestic pulses consumption is met through imports.

The cotton sowing has been up by 6.8% so far while sugarcane planting has been marginally higher than last year.

HOLCIM ACQUISITION TO ADD ₹40,000 CRORE

Adani Group's debt to go up to ₹2.6 trn, says Credit Suisse

However, cash flows have grown steadily; net debt/Ebitda has come down to 5x in FY22

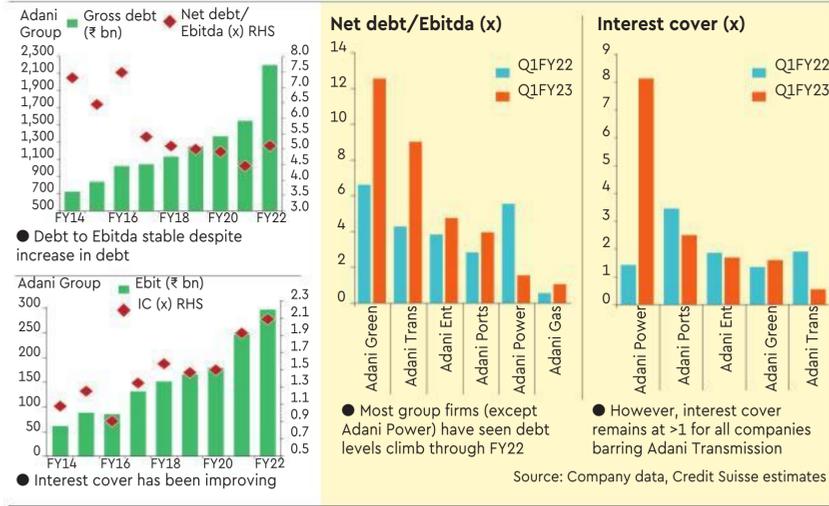

FE BUREAU
New Delhi, September 2

THE RECENT ACQUISITION by the Adani Group of cement maker Holcim's India businesses is expected to add another ₹40,000 crore to the Group's debt, taking it to approximately ₹2.6 trillion, an analysis by Credit Suisse showed.

The Gautam Adani-led Group has seen its debt levels increase over the past five years from ₹1 trillion to ₹2.2 trillion, fuelled by the expansion of the ports business, investments in green energy, the acquisition of transmission business, and venturing into newer areas (Adani Enterprises) such as airports, roads and data centres.

Analysts at Credit Suisse noted that while the gross debt levels may have risen, the Group has managed to diversify its debt in favour of bonds and financial institution (FI) lenders with longer maturity tenors. "As compared to about 86% of debt maturing within five years at end-FY16 (debt levels of ₹1 trillion), only 26% of the debt is now maturing in less than five years," they said.

In terms of currency, approximately 30% of the overall debt is denominated in foreign currency. Moreover, as the absolute levels of Indian bank loans to Adani have remained stable over the past five years, their share of the total debt has come off significantly to just about 18%. The analysts pointed out that

while debt levels may have gone up, the cash flows for the Group have also grown steadily, with more assets coming on stream and becoming operational. As such, the net debt/Ebitda at Group level has come off to around 5x in FY22, compared with a little less than 7.5x in FY16. The interest cover has also increased to more than 2x now versus 0.9x in FY16.

Overall, most Group companies saw debt levels rise in FY22 as they continued to invest. However, barring Adani Transmission, the interest

cover has remained stable for these entities with improving operations. Adani Green saw a good improvement in the operationalisation of assets, and consequently, the sharp jump in debt has not impacted the interest servicing ability of the firm.

Recently, an analyst on the credit desk at Nomura Holdings in Hong Kong, said with Abu Dhabi-based International Holding Co (IHC) injecting \$500 million into Adani Green Energy, the firm's

debt-to-capital ratio would fall. The equity infusion will help stabilise the company's debt-to-capital ratio in the low 60% range from 95.3% at the end of March. IHC's support "will be reflective when the company unveils its second quarter balance sheet details", the analyst said, noting that the infusion of funds reflects Adani Green's equity-ability to raise funds. IHC has invested almost \$2 billion in all the three firms owned by Gautam Adani.

While the analyst said the Adani Group's aggressive expansion is a "negative overhang for credit investors as much of the M&A recently has been debt-funded", he noted that it has demonstrated prowess at locking down external investors to shore up capital.

GMR to divest entire stake in Philippines' Cebu airport

FE BUREAU
New Delhi, September 2

GMR GROUP ON Friday said it has entered into a definitive agreement with the Philippines-based Aboitiz Group to divest its entire stake in the country's Mactan Cebu International Airport. The airport was developed by GMR-Megawide Cebu Airport Corporation (GMCAC) and was being operated by it since 2014.

GMCAC is a joint venture between GMR Airports International BV (GAIBV), a step-down subsidiary of GMR Infrastructure and a direct subsidiary of GMR Airports, and Megawide Construction Corporation (MCC).

The entire transaction will be undertaken at an enterprise value of 49.7 billion Philippine Peso (PHP) or ₹7,050 crore, GMR Infrastructure said in a regulatory filing. "...GAIBV will receive an upfront amount of PHP 9.4 billion (₹1,330 crore) in lieu of the shares being transferred and notes being issued. We would continue to operate as the technical services provider to GMCAC until December 2026, and would also be entitled to additional deferred consideration based on the subsequent performance of GMCAC for the same period," the filing said.

While GAIBV holds a 40% stake in the JV, the remaining 60% is held by MCC. Both companies have agreed to sell their existing stakes in GMCAC to Aboitiz Group's infra-

Under the agreement, GMCAC will issue primary shares and there will be a transfer of secondary shares from GAIBV and MCC to AIC amounting to PHP 9.5 billion. This

will result in AIC owning almost a 33.3% stake in GMCAC.

GAIBV and MCC will also issue exchangeable notes for PHP 7.75 billion each, aggregating to PHP 15.5 billion. "The notes will mature on October 30, 2024, and will be exchanged by AIC for the remaining 66 and 2/3% plus 1 share of GMCAC's outstanding capital stock," the filing said.

Srinivas Bommidala, business chairman - international airports, GMR Group, said: "We are happy to welcome and partner with AIC at Mactan Cebu International Airport. In the last eight years, we have completed the expansion plan and have been one of the fastest growing airports in the region which led to steady returns."

"With AIC's deep expertise in the region, we are confident that Cebu Airport will reach new heights. The decision to divest our stake in GMCAC is also in line with GMR Airports' strategy to focus on deleveraging and redeploying capital in high-growth opportunities. Further, we have strengthened our position in the Asia Pacific region by partnering with Angkasa Pura II in developing and operating the Kualanamu International Airport at Medan, Indonesia," he added.

Among others, GMR Group operates airports in Delhi, Hyderabad and Bidar (Karnataka). It is currently developing three major greenfield airport projects across India and Greece.

JSW Steel to sell stake in Chile JV

FE BUREAU
Mumbai, September 2

JSW STEEL, THE flagship company of the diversified JSW Group, has signed an agreement to sell its entire stake in Chile's Santa Fe Mining to Diego Calvo SpA, due to unviable business conditions. It has also proposed to liquidate investments in other subsidiaries in Chile over the due course of time.

JSW Steel is selling the venture for \$700, and the deal is expected to be completed by September 30, the company said in a regulatory update.

The Mumbai-based firm holds a 70% stake in Santa Fe Mining, which is held through its wholly-owned subsidiary, Inversiones Eurosh Limitada (IEL). Earlier in 2008, JSW Steel had entered into a joint venture with Chile's Minera Santa Fe, controlled by a local entrepreneur, Leonardo Farkas Klein, to develop iron ore mines in South America, including Chile.

The JV firm - Santa Fe Mining - holds iron ore exploration concessions across mines in Belavista and Vinita in the Atacama region. The consolidated negative net worth of Santa Fe Mining is ₹517 crore, it said.

"While the lease of Belavista, which had been operationalised, was terminated in FY21 due to uncertainties arising post Covid-19, in view of the then prevailing market conditions, iron ore mining in other mines was economically not viable..." JSW Steel said in the exchange notice.

Accenture gears up to tap into demand for the metaverse

AYUSHMAN BARUAH
Bengaluru, September 2

GLOBAL TECH GIANT Accenture is preparing to explore the various opportunities presented by the metaverse, and its India technology centre is leading from the front in terms of skills and innovation.

"We see India playing the metaverse engine for the world with talent, innovation and capability required to help our clients maximise this unprecedented opportunity," said Mahesh Zurale, senior MD, Lead - Advanced Technology Centers in India (ATCI), Accenture.

The metaverse is also creating demand for new talent ranging from creative storytellers to deep technical talent. "Our people in India are already contributing significantly to the work we are doing in the metaverse. In fact, our innovation hubs in India already have the largest and deepest skill sets and assets required to build and operate new digital experiences leveraging metaverse-related technologies," Zurale said.

As the metaverse continues to evolve rapidly, Accenture is focusing on expanding its capabilities by hiring talent as well as skilling existing employees, he said. "Skilled professionals are needed in areas such as AI, blockchain, security, and 3D world creators who can bring together different elements of the metaverse for real-world applications."

In March, Accenture launched its Metaverse Continuum business group to enable organisations to take advantage of the new opportunities in technologies such as extended reality, blockchain, digital twins, and edge computing.

Accenture has been operating in the metaverse for much of the past year. It also operates its own metaverse, the Nth floor, where its employees participate in new hire orientation and immersive learning. This fiscal, it expects 150,000 or more new hires to work in the metaverse on their first day.

Accenture Labs claims to have filed over 600 patents in metaverse-

related technologies and conducted over 200 metaverse-related pilots and proof-of-concepts.

The company believes some of the early metaverse adopters will include industries such as retail, consumer products, financial services, health, industrial, and manufacturing. According to Accenture's Technology Vision 2022 report, nearly 71% of executives surveyed said the metaverse is having a positive impact on their organisation even at this early stage, and 42% believe it will be breakthrough or transformational.

"The metaverse is ushering in the next major wave of digital change and providing organisations a unique opportunity to act boldly and take greater hold of their future. The winners in this space will be those who experiment now with all the right pieces in place and then scale swiftly," Zurale said.

Google's third-party billing pilot in India

PRESS TRUST OF INDIA
New Delhi, September 2

GOOGLE ON FRIDAY announced that third-party 'in-app' billing system pilot will be extended to India and some other markets, allowing non-gaming developers to offer users the choice of an alternative billing mechanism alongside that of Google Play.

A reasonable service fees will continue to apply in order to support investments in Android and Play, according to Google. However, specifics of what the reasonable service fees will be, have not been disclosed.

Users will still have the choice to use Google Play's billing system.

"With this next phase of Google Play's user choice billing pilot, all non-gaming developers can offer an additional billing choice alongside Play's billing system for their users in Australia, Japan, India, Indonesia, and the European Economic Area," a Google spokesper-

son said.

The spokesperson added: "We will be sharing more in the coming months as we continue to build and iterate with our pilot partners." With this, all non-gaming developers globally can sign up to participate in the pilot and offer this choice to their mobile and tablet users in these select markets.

The move comes amid discontent among developers as well as increasing global scrutiny of app stores norms, and the way commissions are structured by big app stores.

Put simply, user choice billing refers to the ability for developers to offer an alternative in-app billing system alongside Google

Play's. At checkout, users are able to choose which billing system to use. In-app purchases are additional content, features, or subscriptions that users buy within a particular app. The Google Play Billing policy has always required developers to use Google Play's billing system for in-app purchases of digital goods.

Shenzhen curbs a concern, but consumer durable firms ready for festive sales

KRITIKA ARORA
Mumbai, September 2

AS CONSUMER DURABLE companies gear up for the upcoming festive season with hopes of robust sales of refrigerators, washing machines and TV sets, the Covid-related lockdowns in Shenzhen, China, have raised some concerns.

Majority of the components for electronic products are imported from China and the city of Shenzhen is known to be the hub for electronic components. The Chinese government has put the city under lockdown because of rising Covid cases.

The consumer durables industry imports over 60% of components for ACs and around 25% for refrigerators from China. Though

It (the curbs in Shenzhen) will also have an impact on the replacement market as a lot of such components come from Shenzhen.

consumer durables manufacturers in India are all set for the festive season and have enough inventory to cater to the expected rise in demand, industry players say that if the lockdown in Shenzhen con-

tinues, there could be an issue of components shortage after the festive season, which would again increase the prices of parts.

"The impact of the lockdown in Shenzhen has not been felt yet

because we are carrying enough inventory. But there could be some impact in the long term. We don't know how the situation will pan out. But if it continues, post festive season there could be some short-

age and increase in prices of components," Kamal Nandi, business head and executive vice-president of Godrej Appliances, said.

Avneet Singh Marwah, CEO at SPPL, the exclusive brand licensee

of Thomson in India, said since Shenzhen is home for electronic components in the world, the curbs would definitely impact the market in the long run. Its effect will come in November and December. If the festive season goes well, there can be shortage in high moving segments.

The festive season is taken care of, but Shenzhen plays a very important role in TV manufacturing as it's a hub of electronic components, Marwah said. "It will also have an impact on the replacement market because a lot of replacement components come from Shenzhen. That will be a challenge for a lot of brands," he added.

B Thiagarajan, managing director at Blue Star, said they are all covered for the festive season and

have inventory for four months. "These things keep on happening now and we have begun planning for a longer period," he said.

As far as demand in the festive season is concerned, industry players expect good demand, especially in the premium segment. The demand in May-June-July was subdued due to inflationary pressures.

Nandi said the mass segment is still under stress and there is some degrowth. "This trend has been observed in the last four months. For the festive season, we expect that this trend might continue across categories because we don't see inflationary pressures in the mass segment easing out so far," he said. However, the premium segment will continue to grow in the festive season, he added.

TURNED EBITDA-POSITIVE IN H2, SAYS FINTECH STARTUP

MobiKwik posts 80% jump in FY22 revenue at ₹540 cr

FE BUREAU
Bengaluru, September 2

FINTECH STARTUP MOBIKWIK on Friday reported a revenue of ₹540 crore for FY22, registering an 80% year-on-year growth over the previous financial year. The company further said its contribution margin rose to ₹147 crore compared with ₹40 crore in FY21, while its total cash burn for the first half of FY22 stood at ₹72.5 crore.

MobiKwik claims to have turned Ebitda-positive towards the second half of the financial year, though it did not provide details on net profit figures. The company's total comprehensive losses stood at ₹110.99 crore in FY21.

FY22 was an eventful year for the startup with the firm raising \$35 million in venture capital. Its payments platform saw 22 million user additions, taking the user base to around

127 million. Consolidated GMV for FY22 stood at ₹34.5 crore, a 132% y-o-y growth against the previous financial year.

"The most significant milestone was turning Ebitda-profitable in the second half... With business now self-sustaining and the momentum growing, we remain confident of not only achieving our short-term finan-

cial goals but also a long-term objective of transforming into a full-service neobank," co-founder Upasana Taku said.

Currently, the firm generates revenue primarily from two segments: payments and digital financial services. The payments segment contributed around 80% of the consolidated revenue with a contribution mar-

gin of 32%. "We have remained profitable in this segment over the past four years with a steady uptick in margins. These trends should debunk the questions around profitability in the payments space," Taku added.

The digital financial services segment registered a 426% y-o-y growth in GMV. Digital financial services constituted 5% of FY22 consolidated GMV, but it contributed 20% of the revenue. MobiKwik ended the year with 2.7 million active users in the segment, with a 5X rise in credit disbursements. The credit costs for its entry-level product declined — from 5.25% to 3.95%; trending lower in the second half of the year.

"Our performance has given us the confidence to accelerate further — the first 5 months of FY23 has equaled credit disbursements of the entire FY22... we are also expanding the product portfolio..." Upasana said.

Holiday Inn and Holiday Inn Express to drive growth: IHG

VARUN SINGH
New Delhi, September 2

IHG HOTELS & Resorts, which has 41 hotels with 7,136 keys across five brands in India, is banking on the Holiday Inn and Holiday Inn Express brands to drive its growth in the country, a senior company official told FE.

With Holiday Inn and Holiday Inn Express brands together making up over 68% of IHG's portfolio in India, the company's South-West Asia MD, Sudeep Jain, said the two brands are going to remain the "driver of growth" as economies work in their favour. "The outflow of capital to build these hotels is much lower than the big hotels," Jain said.

IHG's portfolio in India includes 15 Holiday Inn hotels having 2,818 rooms and 13 Holiday Inn Express hotels with 1,774 rooms. Also, there are 10 Crowne Plaza hotels with 2,332 rooms, two Intercontinental hotels with 164 rooms and one Six Senses hotel that has 48 rooms. While Six Senses and InterContinental brands cater to the luxury segment, Crowne Plaza sits in the premium segment, and Holiday Inn and Holiday Inn Express come under the essentials segment.

The occupancy levels at IHG properties have crossed pre-pandemic levels. The average occupancy at its hotels in the first half of CY22 was close to 67%, which was 26% and 2% higher than the same period in CY21 and CY19, respectively. The company is projecting the country-wide occupancy in the

second half of this year to be nearly 74%. In terms of RevPAR (revenue per available room), IHG recorded an increase of 140% during the first six months of CY22 in comparison to the corresponding period of CY21.

The industry-wide occupancy at hotels in CY2019 was 66.2%, while the RevPAR stood at ₹3,967, according to HVS Anarock. Owing to Covid, occupancy and RevPAR across the industry declined to 33-36% and ₹1,500-1,800 in CY2020, respectively. The Indian hotel sector ended CY2021 with a country-wide occupancy of 42-

45% and RevPAR of ₹1,800-2,100 as a result of a strong recovery in domestic leisure travel, and partial resumption of business travel, as well as wedding and social events.

Jain pointed that though the business was down about 40-50% at the peak of the pandemic, the reason being quarantine business," he said, adding that not every hotel's top line and bottom line took a hit to that level.

The corporate segment was contributing almost two-thirds to the company's business before the pandemic, with the remaining one-third coming from the leisure segment. According to Jain, it has more than flipped today.

IHG is also planning to bring brands like Regent, Vignette and Kimpton to India. "These three brands are right for India and with the right partners in the right location, we will bring them here," Jain said.

On the expansion plans in South-West Asia (India, Bangladesh, Nepal and Sri Lanka), he said that almost 46 properties are under development. IHG was signing about 12-14 deals every year before the pandemic. "I think we will be back with an increased volume in CY22 and CY23."

IHG employs nearly 5,000 individuals at present across its 44 hotels in South-West Asia. "This number is between 15-20% lesser than what was pre-pandemic," Jain said.

Tata Steel to convert material biz into arm

INDRONIL ROYCHOWDHURY
Kolkata, September 2

TATA STEEL WILL hive off its new material business (NMB) into a separate subsidiary, with a plan to foray into manufacturing railway coaches, medical material devices and graphene applications, Debashish Bhattacharjee, vice president, technology and NMB, Tata Steel, said.

While the railway coach making would involve composite material, the medical material devices would involve advance ceramics, which the NMB has developed, he said.

The objective of NMB is to contain CO2 emissions. EVs, aviation and transport — particularly metro rail and hyperloop — have become the key drivers of the business.

The company has formed a JV with Dutch firm TABB Interior Systems to set up a 100% export-oriented composite material railway coach plant near Pune with the NMB division, targeting ₹700-800 crore business from its first phase of investment by 2026. "By 2030 when the second phase completes, our NMB revenues will run into several thousand crores," Bhattacharjee said.

The NMB division envisages partially insulating revenues from the cyclicity of the steel business while responding to the growing demands for alternative materials.

Huge drop in Akasa fares on key routes

AKASA AIR, WHICH started operations less than a month ago, has slashed fares on key routes, including Mumbai-Ahmedabad and Bengaluru-Kochi, by as much as 60% since ticket sales for its flights opened on July 23.

On Wednesday, the cap on domestic airfares was removed. The civil aviation ministry had imposed them based on flight durations when services were resumed on May 25, 2020, after a two-month lockdown due to the pandemic.

Engaging with Pakistan

India must immediately extend food and other humanitarian assistance to the disaster-stricken nation

AT A TIME Pakistan is reeling from a “monsoon on steroids”—with one-third of the country under water that has affected 33 million people—India must step up engagement, including extending humanitarian assistance to its neighbour. There is no reason why it can't help Pakistan as it has helped Sri Lanka and Afghanistan. Pakistan is also desperately short of foreign exchange to import essentials and is seeking IMF assistance. No doubt, there are different voices within the Pakistan government on sourcing vegetables and food from India. Last year, too, these conflicting signals came in the way of importing sugar and cotton. As political tensions continue to cast a long and troubled shadow over bilateral cooperation, India has taken the position that the onus is on Pakistan for trade to resume. No decision has also been taken on sending aid. From India's point of view, the neighbour's sponsorship of cross-border terrorism stands in the way of any *entente cordiale*. Pakistan considers the restoration of the pre-August 5, 2019, status of Jammu and Kashmir as the core issue bedeviling bilateral relations. But these issues pale before the sheer scale of humanitarian disaster unfolding in Pakistan. The time to act is now. India must offer to rush food and other assistance immediately to Pakistan.

Interestingly, bilateral frictions have not come in the way of trade. Islamabad has for long denied most-favoured-nation status to India's goods. India, too, withdrew MFN status to Pakistan in February 2019 after the Pulwama terror attacks. MFN status ensures non-discriminatory trade between partner countries. Despite Islamabad's ban on trade with India, it has almost doubled its imports during April-June this fiscal from India of sugar and sugar confectionery, organic chemicals and pharma products. There is no reason why India cannot significantly increase its imports from that country beyond items like dates. India's trade with Pakistan dwindled to \$516 million in FY22 while our two-way trade with Bangladesh is 35-times larger, at \$18 billion. It is also a well-established fact that scale of informal trade is several multiples larger than formal trade. Clearly, there are interdependencies between India and Pakistan that must be seized on the trade front. Otherwise, there will be a huge loss in potential opportunities, contrary to economic theory which states that neighbouring countries often tend to trade more with each other.

India must reach out to its biggest neighbour in its hour of need. Perhaps the best occasion for doing so could be when prime minister Narendra Modi and his Pakistani counterpart Shehbaz Sharif meet on the sidelines of the Shanghai Cooperation Organisation summit at Samarkand, Uzbekistan in mid-September. PM Modi, for his part, has said that he was saddened by the devastation caused by the floods in Pakistan. PM Sharif in turn thanked PM Modi for his concern. When both leaders meet, India must go further than expressing commiseration. The uptick in Pakistan's recent imports is a favourable augury for commerce to resume even if it is only food and vegetables for starters. Due to its bilateral problems with Pakistan, India has preferred regional groupings like the Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation to the South Asian Association for Regional Cooperation. Unfortunately, the truth is that as the dominant power in the region, India cannot address the unfinished agenda of South Asian integration without engaging Pakistan.

Wall Street is in denial over the US economy

Everyone is too focused on the still decent nominal data when the inflation-adjusted numbers tell a dire story

WE KNOW THAT the US economy is currently weak, but the real economy is really weak, and the Federal Reserve's commitment to precipitate a recession to curb high inflation will make this reality obvious to seemingly oblivious investors. Real GDP dropped for two consecutive quarters, and although the NBER has yet to declare that a recession is underway, those who concentrate on nominal numbers, uncorrected for high inflation, still hope that a business downturn can be avoided. They talk about rising wages in a tight labour market with low unemployment and job openings exceeding the number unemployed. Hourly pay in nominal terms is up 8.8% since May 2021.

But corrected for inflation, real wages have declined, bringing the cumulative drop to 3.2%. Even nominal wage growth is slipping, with March's annual growth rate of 5.6% slowing to 5.2% in July. When other sources of personal income are included and income taxes are subtracted, disposable personal income rose 6.8% in the second quarter from a year earlier but fell 0.6% when adjusted for inflation. Those who believe consumer spending is robust confuse the overlays of inflation for the real economy. Since March 2021, nominal retail sales rose 6.9% but are down 4.1% in real terms.

Denial of the ravages of inflation was widespread in the late 1960s and 1970s when huge federal spending on the Vietnam War and Great Society programmes pushed the economy into double-digit inflation. Despite the Johnson administration's belief, the economy did not have the supply of labour or the industrial capacity to produce both arsenals of military outlays and civilian products.

Corporate costs soared as CEOs felt duty-bound to keep employees at least apace of soaring prices. So not only did nominal wages grow but so did real pay. At the same time, depreciation of plant and equipment, based on historic costs, fell far short of the funds needed for replacement. Also, inflation created taxable inventory profits. The dollar value of inventories jumped even though the physical size of stocks didn't change. I pleaded with our corporate clients at the time to look at their company results in real terms to see just how much damage inflation inflicted. The universal response was that Wall Street doesn't care about real results so why should they? And while the Dow Jones Industrial Average, in nominal terms, oscillated around the 1,000 level from the late 1960s to the late 1970s, in real terms it plunged 73.1% from January 1966 to July 1982. Despite today's high inflation, some stockholders are also in a state of denial.

On August 16, Walmart Inc. reported 8.4% revenue growth in the quarter ended July 31 from a year earlier, less than the 8.5% surge in the consumer price index. Grocery sales volume dropped during the quarter and operating income fell 6.8%. Still, investors bid up Walmart shares 5.1% the day of that announcement.

On August 23, Macy's Inc cut its forecasts for this year due to the economic downturn, the slowdown in consumer spending and markdowns and promotions to get rid of excess inventories. Sales in stores that were open at least a year fell 1.5% in its second quarter from a year earlier. Still, shares of Macy's closed 3.8% higher that day.

Today's high inflation is clearly eroding corporate results. From the second quarter of 2021 through the second quarter of this year, gross value-added of corporate business (in effect, corporate sales) rose 12.7% nominally but just 5.1% in real terms. After-tax corporate profits did worse, rising 7.4% but only 0.1% when corrected for inflation.

Inflation may have reached its peak, but will no doubt recede slowly. So, the 5% increase in S&P 500 earnings that Wall Street analysts forecast for 2022, as reported by S&P Global, will amount to a real decline. Investors, no doubt, will pierce the veil of inflation and shift their emphasis to the growing weakness in real corporate revenues and earnings. That, in part, may be behind the recent renewed sell-off in equities. My earlier forecast of a 40% total drop in the S&P 500 from the early January peak is still relevant.

AS ONE FROM the Boomer generation, I look at the current society with curiosity, for we see the “beta” generation merging into the “meta” generation. The binary between the physical and the digital world is getting diminished, and we constantly (struggle to) navigate both these worlds simultaneously. The Indian demography has more than 65% under the age of 35 years, constituting the digital native generation. This essentially means that the biggest productive workforce in the decades to come would be today's youngsters. That should account for their “influence” across society, social media, polity, etc. Can technology be used as a socio-developmental tool? Aren't we (digital non-natives) living in their generation and trying to make rules for their future?

We are in a crucial phase in India where Gig Economy, Millennials & GenZ (GEMZ) play a large role. The gig economy is a free-market system in which businesses work with independent freelancers, as opposed to hiring full-time workers. India's gig sector is expected to grow to \$455 billion by 2024, at a compounded annual growth rate of 17%. A study in 2021 about millennials found that 64% of full-time millennial workers globally want to have at least some participation in the gig workforce. Has the pandemic lockdown and consequent societal behavioural changes hastened this? With millennials moving into mid- to senior-management roles, and GenZ gradually becoming a part of the workforce, we are relearning what constitutes “employment”. But the unasked question is: Does gig working promote flexibility, empowerment and entrepreneurship at work, or is it really a form of opportunistic exploitation?

The younger consumers are also those who have the disposable income and the attitude to spend on consumption, be it vanity products, experiences, house purchase, vehicles, dining, healthcare or design-preservation ideas like spa, salons, etc. This does give rise to newer business models to serve these consumers. Imagine a

The GEMZ conundrum

financier giving EMI option for bridal makeup or botox or Buy Now Pay Later for holidays. Isn't this instant gratification at extended payment mode?

Gen-Z (estimated at one-third of the population) choose skills over pay levels, experiences over career, and are reshaping societal norms and concept of corporate etiquette. They are a hypercognitive generation, comfortable with collating various diverse sources of information, with the intersection of virtual and offline experiences. What do our youngsters want? For starters, they seek experience and exploration, rather than just an experience certificate. They seek memories instead of just getting services. They seek instant joy versus long-term stability. The learnings of the previous generations may not be able to provide context for the GEMZ generation to emulate or even hold their attention. They aspire for everything “better than what they have or don't have”.

If we use this context and add the complexity of living in a VUCA world, how does one design organisation structures to productively employ the younger generation? The conventional management structures of command won't work, and modern firms have to move to an impact and accountability framework. How do we learn about their motivation, aspirations, interests and design roles to keep them engaged and empowered, and not feel simply entitled?

India's total internet user base, as of January 2022, stood at 658 million, with plenty of room to grow. ‘Jiofication’—the launch of Jio network in 2016 and its subsequent scaled rollout across India—brought in pricing that almost made internet-access an inclusive phenomenon across India. Rural India, which was not spoken to before, woke up to the opportunities of such connectivity.

India has adopted social media smoothly. With over 467 million social network users, India has the second-highest number of social media users in the world. That's a third of the Indian population using social media. Facebook, YouTube, and WhatsApp dominate the social media space in India, while, Instagram is also very popular amongst urban youth. The basis of ‘narcissism’ and ‘voyeurism’ works well for social media platforms. ‘What I am doing’ and ‘what is someone else doing’ are both important aspects that they offer with much economic success. Our millennials and GenZ are the most active social media users. Potentially, internet access and social media platforms offer them opportunities for learning, articulating and experimenting with news ideas and creativity, networking with online communities of interest, online business & accessing (newer) markets and services.

Youngsters use social media to have fun, share interests, explore their own multiple identities and develop relation-

ships with family. However, different segments of social media users use it differently. Digitally-savvy millennials in India post stories on Instagram, share memes on Facebook, watch videos on YouTube, post opinions on Twitter, and chat with each other on Facebook Messenger. For older Indians, WhatsApp is the ultimate social network! Pictures and selfies from your recent holiday will not go onto FB or Insta. Videos don't go on YouTube, and jokes and smart statements don't go on Twitter. WhatsApp is an extension of their offline and face-to-face interactions! Conversations range from mindless interactions to mindful intimacy. We inform, without engaging.

So any communication with the youngsters, be it from the organisations they work in or with, or the communities they are part of, have to factor these in. It is important that businesses learn how newer digital modes of interaction affect socialisation habits in general.

Social media offers opportunities for the youth to connect to the world, to express their opinions without inhibitions, and to learn more. Even though social media platforms ‘connect’ more number of people, they still seem to increase the feeling of ‘isolation’. It reduces the number of face-to-face interactions amongst the youth because they normally spend most of their time on these online social platforms. Are those ‘connections’ sustainable & productive? Is this what we are seeing where corporates are struggling to get youngsters back to office?

The thin dividing line between content-consumer and content-creator is becoming blurred. The key attribute of such a format is that it allows them to converse with their community together as a whole. Where does one draw the line of what is privacy and personal-privacy?

With these challenges of communication, connectivity, convergence of human interaction and digital interface, the future of businesses needs deeper understanding of GEMZ. If we still haven't learnt about our youngsters, when will we? For they already dream and desire in digital.

Improving Rajasthan's Ease of Doing Business

PRADEEP S MEHTA & TANYA GOYAL

Authors are with CUTS International

The state should implement Regulatory Impact Assessment, which involves the comparison of costs and benefits of different regulatory proposals

IN 2021, RAJASTHAN slid from being a Leader in the Ease of Doing Business (EODB) ranking of states to being an Aspirer. Considering its poor unemployment and fiscal situation, Rajasthan must attract more investment into labour-intensive sectors, making better EODB essential. The state has taken radical steps in the past, such as allowing small units to start without any entry formalities for five years, but more needs to be done.

One such step is reducing the number of documents required to apply for Certificate to Establish, and Certificate to Operate (CTO/CTE). In Punjab, CTE needs only four documents (site plan, board resolution, document indicating the designation to land, and a land document such as registration or rent deed). Andhra Pradesh requires details of potential water sources in addition. However, in addition to these five documents, Rajasthan asks for acknowledgment from the DIC/Secretariat for Industrial Assistance (ministry of commerce and industry), and a project report signed by a CA, even though these don't add value to the evaluation process.

Second, the state government has prescribed timelines for each authority in the process of screening applications for CTE and CTO. However, such timelines are not necessarily adhered to. Given that industries other than SMEs can't be established without a CTE and cannot begin operations sans CTO, unreasonable delays in decision-making could lead to sunk costs.

Rajasthan provides different periods for decision-making on applications, depending on the nature of the industry. For red category industries, the application is to be accepted or rejected within 90 days; for orange, in 50 days, and for green industries, in 7 days. However, in Andhra Pradesh, the total period for decision-making is between 7 and 21 days.

Third, change of land use in Rajasthan is to be completed in 60 days, never adhered to in practice. However, in Haryana, this is to be completed in 45 days. Given change of land use certificate is essential, the direct and indirect costs of the delay are likely to be substantial.

Fourth, Telangana grants NOC based on Third Party Verifications for fire clearances. Rajasthan doesn't provide for self-certification or third-party verification. Here the municipal councillors have a role, and thus rent-seeking takes place.

These inconsistencies and procedural hassles in Rajasthan could be by oversight. It would be wise to adopt the best practices from other states for better procedures. Recently, finance minister Nirmala Sitharaman released the *Business Reform Action Plan (BRAP) 2020* report, listing the top states to do business in India. Rajasthan doesn't figure in the top 13. Unnecessary and avoidable compliance requirements are a key reason for a large proportion of investment commitments not materialising. Typically, only around 15% materialises on the ground.

A CUTS International study, *Doing Business in Rajasthan*, with the support of the CM Rajasthan Economic Transformation Advisory Council (CMRETAC), focuses on compliance and regulatory philosophy. Reviewing the frameworks adopted by different countries to enhance EODB and reduce compliance burden, CUTS zeroed in on the globally recognised Regulatory Guillotine (RG) framework to design a methodology for Rajasthan.

The RG framework rapidly reviews compliances through a consultative mechanism, reverses the burden of proof, and requires clearances to pass the tests of legality, necessity, and proportionality. Only if a requirement passes all three tests should it be retained. The RG framework can be reviewed and revived. This has already been recommended by the state government in January 2021.

Requirement	Explanation	Result			
Legality	Is the compliance required and does it fall within the scope of any law?	Yes	Yes	Yes	No
Necessity	Are the forms/documents, conditions, and fees, essential to ensure compliance?	Yes	Yes	No	Not Required
Proportionality	Is implementation (time and process) fast and simple?	Yes	No	Not required	Not required
Action needed		Retain	Amend	Abolish	Abolish

LETTERS TO THE EDITOR

BJP's strategy vis-a-vis the Aam Aadmi Party

The political sparring between the BJP and the AAP buttresses the comment that there is never a dull moment in Indian politics. Both the parties hurled allegations and counter-allegations. BJP's charge was that there was corruption in the grant of licenses for liquor outlets in Delhi and in the construction of schools. AAP's counter was that the Delhi Lieutenant

Governor VK Saxena changed banned currency notes worth ₹1,400 crore during the 2016 demonetisation and the BJP had set aside ₹800 crore to fund 40 AAP MLAs. The CBI could so far find nothing to prove the charge of corruption against Manish Sisodia despite raids in his house and opening of his bank locker. Clearly, the BJP's no holds barred attack on the AAP was part of the BJP's agenda to weaken the Kejriwal-led party politically. —G David Milton, Maruthancode

Learn from Punjab on expert leadership

Kudos indeed to the Bhagwant Mann-eld AAP government in Punjab for taking the very commendable and apt decision to recognise the talent and expertise of Sukhpal Singh, an agro-economist at the Punjab Agricultural University; he richly deserves to don the mantle of chairman, Punjab Farmers Commission, because of his

remarkable research and fieldwork in Punjab agriculture. His choice for this august office by Mann hopefully should prove instrumental in ameliorating the lot and the present plight of farmers in the state. Let the Centre and other state governments of the nation too take a leaf from the Punjab government's book to encourage expert leadership. —PK Sharma, Barnala

THE SECURITIES APPELLATE Tribunal (SAT) on Friday rejected the appeals filed by some shareholders of Tamilnad Mercantile Bank and also granted a go-ahead to the lender's initial public offering (IPO). The bank is set to start the book-building process for the proposed listing from Monday.

While the tribunal, headed by Justice Tarun Agarwala, has rejected the shareholders' appeals, a detailed copy of the order is awaited, two sources associated with the case said.

Six shareholders of the bank — Swiss Re Investors (Mauritius), FI Investments (Mauritius), Kamehameha (Mauritius), Cuna Group (Mauritius), Robert and Ardis James Company and East River Holdings — in January moved the Bombay High Court, seeking directions to Sebi to

The shareholders had alternatively sought directions from the high court to restrain Sebi from accepting the bank's draft red herring prospectus or approving the offer made by the bank through the IPO.

Yes Bank hikes FCNR (B), NRE deposit rates

FE BUREAU
Mumbai, September 2

PRIVATE SECTOR LENDER Yes Bank on Friday increased the interest rates on its non-resident external account (NRE) fixed deposits by 50-75 basis points (bps) and on foreign currency non-resident (FCNR) deposits by 20 bps. With this, the NRE fixed deposit rate maturing in up to 18 months stands at 7.01% while for those longer than 18 months it stands at 7.25%, applicable to deposits below ₹5 crore. The bank will also offer a peak rate of 4.05-4.25% on FCNR deposits with tenures of up to 36 months.

The interest rate hike follows the recent announcement made by the Reserve Bank of India (RBI) to aid incremental fund flows, the lender said in a press release.

"The recent relaxation announced by the RBI to attract forex inflows has allowed us a window to hike interest rates on our NRE and FCNR fixed deposit offerings, thus extending the benefit to our customers," said Prashant Kumar, managing director and chief executive officer of the bank.

The central bank in July decided to allow banks to raise fresh FCNR(B) and NRE deposits without reference to existing restrictions on interest rates till October 31.

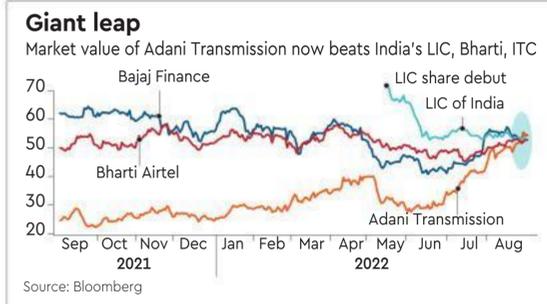

Adani Transmission mcap swells; shares surge 125%

ASHUTOSH JOSHI
September 2

ADANI TRANSMISSION HAS blown past entrenched corporate giants to become India's 10th-largest listed firm by market value as part of a broader runaway rally in Adani Group stocks. Shares of the New Delhi-based power utility have climbed almost 125% this year, boosting its market capitalization to ₹4.4 trillion (\$55.2 billion) on Friday. Its valuation surpassed Life Insurance Corporation of India and ITC Ltd. The scrip on Friday closed down 0.37% to ₹3,862.35 on the BSE.

Adani Transmission's pole-vault up the market capitalisation table underpins the broader trend among Adani's seven listed firms that have fuelled a blistering \$64 billion surge in the tycoon's wealth. With shares of some of his firms gaining over 1,000% since the beginning of 2020, Adani has speedily emerged as the world's third-richest person with a net worth of almost \$141 billion, despite concerns by some analysts around his empire's debt-fuelled expansion and diversification.

There's also a general sense of puzzlement around why the tycoon's businesses are trading at far higher valuation ratios than local and global peers, seemingly beyond what their business prospects would justify. Adani

Transmission is trading at more than 300 times its one-year forward earnings, making it the most expensive stock in the sector globally, including American Electric Power Company and Duke Energy Corp, according to data compiled by Bloomberg.

The utility firm's shares may have been partially buoyed by investor hopes that the government's attempts to transform the country's power sector will benefit the nation's only pure-play, private-sector listed firm in this business. Adani Transmission will be a key beneficiary once changes in electricity distribution are implemented, Lavina Quadros, an analyst at Jefferies India, wrote in a note last month. But those benefits from reforms

are yet to trickle in. Adani Transmission reported a more than 15% drop in profit to ₹1,000 crore for the year through March, while revenue surged 13.4%, data compiled by Bloomberg show. Profit for the latest quarter ended June 30 also slipped 57%.

Some analysts question the sustainability of this rally across Adani Group firms. "Among the biggest foreign investors in some Adani firms are a few Mauritius-based funds, having 95% of their assets in these companies," according to Bloomberg Intelligence strategist Nitin Chanduka. "Such concentrated positions and negligible onshore ownership could create asymmetric risk-reward for investors." —BLOOMBERG

Effect of rate hikes still unclear: MPC member

SAVIO SHETTY
Mumbai, September 2

THE SUCCESS of the Reserve Bank of India's interest rate rises in controlling inflation is not yet clear, and the pace of rate adjustment will depend on the state of the economy, monetary policy committee (MPC) member JR Varma said on Friday.

"If there is robust economic growth, then we would like to accelerate the (inflation) reduction to 4%. But if the economy is struggling, then a slower pace of adjust-

ment would be appropriate," Varma told the Reuters Trading India forum.

The central bank raised its key policy repo rate by 50 basis points (bps) in August to 5.40%, taking the total rises since May to 140 bps. Its next policy decision is due on September 30, with expectations of a rise of less than 50 bps.

By tightening liquidity, the central bank also has pushed interbank interest rates higher within a band, called the corridor, that is defined by the rates at which it borrows or lends from banks.

Rupee dives 31p to 79.87, bond yield rises

AGENCIES
Mumbai, September 2

THE RUPEE DECLINED by 31 paise to close at 79.87 against the US currency on Friday due to a strong dollar demand from importers and losses in Asian peers. A rebound in crude oil prices also put pressure on the local unit. Government bond yields ended higher for a second consecutive session as the weekly auction added to debt supply, while elevated US Treasury yields dented appetite.

At the interbank foreign exchange market, the rupee opened lower at 79.63 per dollar. It hovered

in a range of 79.61 to 79.83 during the session.

The dollar index, which gauges the greenback's strength against a basket of six currencies, was trading 0.33% lower at 109.32.

Brent crude futures, the global oil benchmark, rose 2.10% to \$94.30 per barrel ahead of the meeting of the OPEC and other producers which are likely to discuss output cuts.

"Taking cues from the regional currencies, the rupee depreciated against the American dollar. The risk-off moods and higher crude oil prices also weighed on the local unit," said Dilip Parmar, research

Forex reserves dip \$3 bn amid fall in currency assets

ENS ECONOMIC BUREAU
New Delhi, September 2

THE NATION'S FOREIGN exchange — or forex — reserves saw a decline of \$3.007 billion for the week ended August 26 to reach \$561.046 billion, data released by the Reserve Bank of India (RBI) showed on Friday. The reserves had fallen by a massive \$6.687 billion during the previous week ended August 19 to \$564.053 billion.

In the week ended August 26, the reserves had fallen mainly because of a decline in the foreign currency assets (FCA) — a major component of the overall reserves, and the gold reserves — according to the Weekly Statistical Supplement released by the central bank.

The FCA had decreased by \$2.571 billion to \$498.645 billion in the reporting week.

Expressed in dollar terms, the FCA include the effect of appreciation or depreciation of non-US currencies such as the euro, pound and Japanese yen held in the forex kitty. Gold reserves decreased by \$271 million to \$39.643 billion, the data showed.

The special drawing rights (SDRs) dropped by \$155 million to \$17.832 billion. The country's reserve position with the IMF also dipped by \$10 million to \$4.926 billion in the reporting week, the RBI data showed.

issues for the government and the RBI in managing the nation's external and internal financial issues.

Higher reserves are a big cushion in the event of any crisis on the economic front and enough to cover the import bill of the country for a year. Higher reserves also help the rupee strengthen against the dollar.

A rise in reserves will provide a level of confidence to markets that a country can meet its external obligations, demonstrate the backing of domestic currency by external assets, assist the government in meeting its foreign exchange needs and external debt obligations, and maintain a reserve for national disasters or emergencies.

RBI launches pilot for digitising KCC

PRESS TRUST OF INDIA
Mumbai, September 2

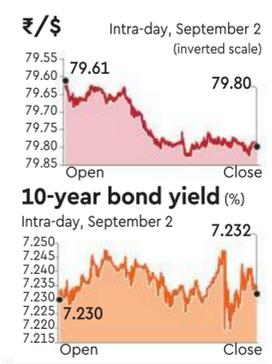

THE RESERVE BANK of India has decided to launch pilot projects to digitise Kisan Credit Card (KCC) in Madhya Pradesh and Tamil Nadu with an aim to transform rural credit delivery system.

Based on the learnings from the pilot, it is planned to expand the digitalisation of KCC lending to other districts in these two states and gradually across the country, the RBI said in a statement.

The pilot project would entail automation of various processes

within banks and integration of their systems with the service providers, it said, adding, the proposed digitalisation of the KCC lending process will make it more efficient, reduce costs for borrowers and reduce turn around time (TAT) significantly.

The TAT from loan application to disbursement has also been rather high, ranging from two to four weeks. Rural credit is closely related to inclusive economic growth, as it caters to the requirements of agriculture and allied activities, ancillary industries, small businesses, etc.

analyst, HDFC Securities.

Meanwhile, the benchmark 10-year government bond yield ended at 7.2318%. The yield rose two basis points on Thursday to end at 7.2146%. The 10-year 7.26% 2032 bond yield ended at 7.2135% after ending at 7.1859% on Thursday.

The government raised Rs 33,000 crore (\$4.14 billion) through bond auction, including Rs 13,000 crore of 7.26% 2032 note, which is expected to replace the existing benchmark paper soon.

However, the Reserve Bank of India partially devolved seven-year bonds on primary dealers, indicating weak demand for the tenure.

FROM THE FRONT PAGE

RBI to minimise growth sacrifice

TOTAL RESERVES with the RBI fell over \$3 billion during the week ended August 26 to \$561 billion.

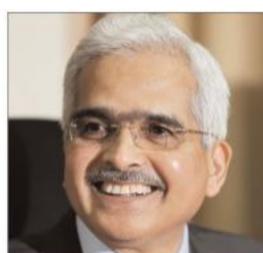

Das said that the transmission of rate hikes has been faster on the lending side than on the deposits side, although loan rates are yet to fully reflect the quantum of hikes. Banks have already raised deposit rates and some have also launched new deposit schemes. "So the gap between lending and deposit rates is closing because we are gradually pulling out the excess liquidity. Coupled with that is credit growth, and banks are being forced to raise deposit rates as a result," Das said, adding that deposits will yield more in the days ahead.

The RBI's supervision and surveillance of credit growth at banks and other institutions is quite meticulous and it keeps an eye on instances of over-lending, Das said. "We make a detailed analysis of which segments are seeing excessive credit growth. Growth is generally

not uniform across lending institutions. Wherever we see a trend of excessive lending, we caution the relevant lenders, be they banks, NBFCs, small finance banks or cooperative banks," he said.

The regulator asks them to assess whether their excessive growth is sustainable and seeks a report. "Wherever required, we also ask them to do an internal review in order to assess and manage risks properly," Das said.

The governor said that all financial sector players are, by and large, happy with the digital lending guidelines released on August 10. He outlined three underlying principles behind the norms. Firstly, they are consumer-centric, because customers will now know the all-inclusive annualised interest rate they'll be charged. Secondly, there are guidelines on collection methods based on interactions with law enforcement agencies. The norms are based on risk assessment and risk mitigation in digital lending. They will apply to third-party loan service providers as well through the regu-

RBI governor Shaktokanta Das

lated entities. The third principle is transparency, so that consumers know who they are taking the loan from, Das said.

Although private banks and state-owned banks have both raised money from the markets during the pandemic and their capital ratios and provision coverage for stressed loans is strong, Das expressed the need for building more capital buffers. "While the fundamentals of banks are strong, I would like to add that going forward, they should raise more capital because the interna-

tional situation is very volatile and they must be prepared for the worst," he said.

Das sought to dismiss the view that the RBI is in no mood to issue fresh banking licences, despite the presence of an on-tap window. "Our mindset is not to hold back on fresh banking licences. If applicants meet the 'fit and proper' criteria, they will be given licences," he said.

If small banks want to merge with a larger bank, there is a provision for that in law and they can go ahead with their board's approval, Das said. "We will examine such merger proposals in terms of their outcome and whether they will strengthen or weaken the bank. We will also look at the new promoter, their eligibility and their ability to meet the fit and proper criteria," he added.

SoftBank's Vision Fund plans at least 20% staff cut

SENIOR AND junior employees in both front and back offices are being

scrutinised to an extent never seen before, the people said. The US has 200 people including Latam staff, the UK has 150 people while China has 50 people, according to another person.

Son had said last month that he would review "everything" for potential cuts without any "sacred cows".

"The loss is the biggest in our corporate history and we take it very seriously," he said at the time. "We have to resort to big cost-cutting efforts at Vision Fund. The cost-cutting efforts will have to include a reduction in headcount — something I've made up my mind to do."

Rajeev Misra, who helped Son set up the initial Vision Fund with almost \$100 billion in 2017, is stepping down from his roles as a corporate officer and executive vice president at SoftBank, the company said in a statement on Wednesday. He will continue to oversee the first Vision Fund's existing investments, while Son has said he will take over the management of new investments under the second Vision Fund.

Son, who turned 65 in August, has

been taking on increasing responsibility at the company he founded 40 years ago. Chief operating officer Marcelo Claure left earlier this year, while former chief strategy officer Katsunori Sago resigned in 2021.

The Japanese entrepreneur has told investors that he is taking defensive steps to navigate his way through a brutal tech downturn. SoftBank said last month that it had raised more than \$17 billion by selling forward contracts on Alibaba Group Holding, the Chinese e-commerce company that made Son's reputation as a startup investor.

Son also said SoftBank has begun talks to sell asset manager Fortress Investment Group, acquired for \$3.3 billion in 2017. To bolster SoftBank's share price, Son unveiled a fresh programme to buy back as much as 400 billion yen of its own stock.

Son is trying to wait out the technology slump so that he can pull off a successful initial public offering for Arm, the chip designer that SoftBank bought for \$32 billion.

MOTORCYCLE REVIEW: BMW G 310 RR

German craft, perfected in India

Made in India by TVS Motor (as part of tie-up between BMW and TVS), the BMW G 310 RR is as good as any world-class motorcycle, even better

VIKRAM CHAUDHARY

FROM THE PAINT quality to suspension, and from engine refinement to design, it's tough to find any area of improvement in the new BMW G 310 RR motorcycle. It looks like a labour of love, actually partnership. The G 310 RR is the third BMW midsize motorcycle to roll out from the lines of TVS Motor's manufacturing facility in Hosur, Tamil Nadu (as part of tie-up between BMW and TVS). I recently rode it in and around Delhi.

What is the G 310 RR?

After the success of the G 310 R and the G 310 GS (launched in July 2018, of which over 10,000 units have been sold in India and 50,000 exported), comes the G 310 RR. It gets the same 312.12 cc engine as the other two, but looks and rides differently. Its competitors are TVS Apache RR 310 (same engine, but priced a bit less) and KTM RC 390 (more powerful, but more expensive).

What defines its design?

It is modelled on track-racing motorcycles. Distinctive features are the golden colour upside down front fork, handlebars with buttons to quickly switch between riding modes, alloy wheels and racing tyres (Michelin Pilot Street) and a big TFT display (looks like a mobile phone fitted on the dashboard).

How does it ride?

The riding position is front forward (upper body slightly leant forward). Handlebars are in easy reach for maximum control. The windscreen is functional and the wind blast on the face (helmet) is minimal (in front-forward riding position).

The power delivery of the engine is way too responsive. So much that you need to artfully control the clutch to keep the bike in control. Acceleration from any speed to any speed (in the right gear) is way too brisk, and the light weight of the bike (174 kg) makes it fly over speed-breakers if you happen to go too fast.

While this riding position leads to exceptional control, it is tiring. I couldn't continue in this position for more than half an hour. Although you can ride sitting straight (back upright), but that spoils the fun, and in that position because the han-

The G 310 RR is not a motorcycle for intercity trips, but for having fun around smooth winding roads. The suspension hates potholes. Braking is super-effective,

and tyres just don't seem to lose grip on any kind of surface (as long as it is metalled). Power delivery and suspension performance can be controlled. In Track and Sport modes, the focus is on maximum performance (top speed is 160 km/h). In

TVS Apache RR 310
₹2.65 lakh

Essentially the same motorcycle, the only difference is the design. But the TVS is priced lower.

KTM RC 390
₹3.16 lakh

It's more powerful, but more expensive as well. Its MotoGP inspired bodywork sets it apart.

Urban and Rain modes, the focus is on control (top speed is limited to 125 km/h).

During my few days of riding in a mix of conditions—highway, track, broken roads and traffic—it returned about 30 km/litre fuel efficiency.

Is it worth the price?

It is priced ₹2.85 lakh for the black Standard variant and ₹2.99 lakh for the classiest Style Sport variant. That makes it at least ₹20,000 more expensive than TVS Apache RR 310 (₹2.65 lakh) which is exactly the same bike (but without the BMW brand value). A few thousand rupees extra can get you a KTM RC 390 (₹3.16 lakh), which is a more powerful motorcycle and whose MotoGP inspired bodywork sets it apart.

But none of those is a beemer.

INNOVATION in petrol

Toyota has stopped taking orders for the diesel Innova Crysta. But the petrol model is on sale. Isn't petrol too expensive to run in a big car, or is that a perception?

VIKRAM CHAUDHARY

EARLIER THIS WEEK, Toyota Kirloskar Motor (TKM) said it has temporarily stopped taking orders for the diesel variant of the Innova Crysta, "due to its high demand that has resulted in an increased waiting period for the diesel variant."

TKM, however, added it will continue taking orders for the petrol variant of the Innova Crysta.

Petrol versus diesel

Small cars are usually powered by petrol and large cars by diesel, because diesel engines are more fuel efficient and provide high torque at low engine RPM. Large cars are heavy, and using petrol engines with lower fuel efficiency (than diesel) increases their running cost.

Traditionally, diesel has been a cheaper fuel in India than petrol (though the gap is closing), and that further lowers running costs of large petrol cars.

Innova is synonymous with diesel

Since its launch in 2005 till 2016, the Innova (it was rebranded as the Innova Crysta in 2015) was available only in diesel. In 2016, it got the big 2,694cc petrol engine (166 PS; 245 Nm), with a claimed fuel efficiency of 10.83 km/litre (the diesel returns 15.1 km/litre).

The petrol model gradually became popular because it made the already com-

fortable Innova Crysta more comfortable. Users realised that the cabin of the Innova Crysta petrol was far quieter than diesel, and vibrations so little that it made long journeys far more comfortable.

Users also understood that despite its relatively lower fuel efficiency, the total cost of ownership of the Innova Crysta petrol was lesser than diesel, because the petrol model was priced lower (see table).

Auto analysts told FE that TKM might not re-launch the Innova Crysta diesel and may instead replace it with a strong hybrid mated to petrol engine. Be that as it may, this move by TKM proves that now is the start of the end of diesel even in large cars (it has already all but disappeared from the small car segment).

Should you buy the Innova Crysta petrol or diesel?

PRESSURE ON FED FOR A THIRD 75 BPS HIKE MAY EASE

US job growth solid in Aug, but labour market starting to loosen

Non-farm payrolls increase 315,000; unemployment rate rises to 3.7% as 700k enter labour market

LUCIA MUTIKANI

Washington, September 2

US EMPLOYERS HIRED more workers than expected in August, but moderate wage growth and a rise in the unemployment rate to 3.7% could ease pressure on the Federal Reserve to deliver a third 75 basis point interest rate hike this month.

The Labor Department's closely watched employment report on Friday also showed a dip in the average workweek. The increase in the unemployment rate came as more than 700,000 entered the labour market, pushing the size of the labour force to a record high.

The overall strength in the labour market underscores the economy's resilience, despite the front-loading of rate hikes by the US central bank that have raised the risk of a recession.

Fed Chair Jerome Powell last week warned of a painful period of slow economic growth and possibly rising unemployment as the central bank aggressively tightens monetary policy to quell inflation.

"This gradual cooling off of the overheated labour market may be just what the US economy needs to help ease inflation pressure," said Eric Merlis, managing director, co-head of global markets at Citizens.

A 'Now hiring' sign is displayed on the window of a restaurant in California. REUTERS

"The Fed should be encouraged by the increased labour force participation rate and the one-tenth drop in hourly earnings."

The survey of establishments showed non-farm payrolls increased by 315,000 jobs last month. Data for July was revised slightly down to show payrolls surging 526,000 instead of 528,000 as previously reported. August marked the 20th straight month of job growth. Employment is now 240,000 jobs above its pre-pandemic level.

Economists polled by Reuters had forecast payrolls increasing 300,000, with estimates ranging from as low as 75,000 to as high as 450,000.

The broad increase in hiring last month

was led by the professional and business services industry, which added 68,000 jobs. Healthcare payrolls increased by 48,000.

Employment in the retail trade sector rose by 44,000, while manufacturing added 22,000 jobs. Leisure and hospitality payrolls increased by 31,000, slowing from an average of 90,000 per month in the first seven months of the year.

Employment in the leisure and hospitality industry remains 1.2 million jobs below its pre-pandemic level.

US stocks opened higher. The dollar slipped against a basket of currencies. US Treasury prices were mixed.

UK premier race in final stage, Sunak trails Truss

PRESS TRUST OF INDIA

London, September 2

THE RACE TO replace Boris Johnson as the Conservative Party leader and the British Prime Minister was in the final countdown stage on Friday, when voting officially closes for Tory party members to choose between former chancellor Rishi Sunak and foreign secretary Liz Truss.

Sunak, 42, and Truss, 47, have gone head-to-head up and down the UK over the past month to win over the votes of an estimated 160,000 Tory electorate.

While Sunak has pegged his campaign on getting a grip on soaring inflation as an immediate priority, Truss has pledged tax cuts from day one in office.

"I have put restoring trust at the heart of the campaign," said Sunak, in response to a question about integrity and ethics, in a debate in London on Wednesday night.

While he was the frontrunner in the first round of voting, the Indian-origin ex-minister has been on the back foot in the

Liz Truss and (right) Rishi Sunak

pre-poll surveys of Tory members who have a vote in this election.

Fierce loyalty to outgoing Prime Minister Boris Johnson is being cited as a key motivating factor in the choice of a majority for Truss, who was not among the ministers who resigned in the days before Johnson's forced exit from 10 Downing Street. The party's attraction to Truss' tax cutting promises is the other key factor behind her as the frontrunner to succeed Johnson.

Lufthansa cancels hundreds of flights as pilots strike work

FRANK SIMON & ANDREAS BUERGER

Frankfurt, September 2

PILOTS AT LUFTHANSA went on strike on Friday, forcing the German airline to cancel hundreds of flights, stranding holidaymakers.

The airline said it had cancelled about 800 flights at its main bases in Frankfurt and Munich, affecting 130,000 passengers, and said it was working flat out to minimise the impact of the strike.

Labour union Vereinigung Cockpit had called on more than 5,000 Lufthansa pilots to stage a 24-hour walkout, saying the latest round of wage

talks had failed. Strikes and staff shortages have already forced several airlines, including Lufthansa, to cancel thousands of flights this summer.

The union is demanding a 5.5% pay rise this year and automatic inflation compensation thereafter, and better terms for entry-level pilots.

Lufthansa has said the demands would raise its staff costs by 40% or around 900 million euros (\$899 million) over the next two years.

The airline has offered a total of 900 euros (\$901.35) more in basic pay per month in two stages over an 18-month period.

Insurance ombudsmen settle 40,527 complaints in FY22

FE BUREAU
New Delhi, September 2

INSURANCE OMBUDSMAN OFFICES ACROSS India settled 40,527 complaints related

to grievances of policyholders in FY22, up 32% from a year before. As many as 3,830 cases were settled by the Bima Lokpal's (ombudsman's) Delhi office alone in the last fiscal.

The Bima Lokpal, an alternative grievance redress mechanism set up by the Insurance Regulatory and Development Authority of India (Irdai), offers a platform

for expeditious and cost-effective disposal of customer complaints. It's constituted under the Insurance Ombudsman Rules, 2017 for individual policyholders to have their complaints settled out-of-the-courts system.

At present, there are 17 insurance ombudsmen in different locations. Any person who has a grievance against an insurer can himself, or through his legal representative, make a complaint in writing to the Insurance ombudsman.

Sudhir Krishna, insurance ombudsman, said the Delhi

centre strives to resolve complaints within 30 days of registration. Over a half of the complaints at this centre were resolved by conciliation/settlement. Consumers can approach the Bima Lokpal within one year from the decision of the insurer.

HEARING IN APEX COURT Govt reply sought on plea against HLL disinvestment

FE BUREAU
New Delhi, September 2

THE SUPREME COURT on Friday issued notice to the Centre and others on a petition challenging the government's decision to disinvest HLL Lifecare Ltd, the manufacturer of a range of contraceptives, women's healthcare products, hospital supplies as well as other pharmaceutical products.

A bench led by Justice SA Nazeer sought responses from the Centre and others on the petition filed by Sabka Sahyog Society, which said that the company role during the Covid pandemic was noteworthy for the procurement and supply of emergency medical items.

While referring to the role played by HLL Lifecare during emergency relief, it said the country cannot afford to privatise an entity like HLL Lifecare at this crucial juncture when the vaccination drive is still going on against the pandemic.

In March this year, the government said it has received multiple preliminary

bids for HLL Lifecare. "The GoI has envisaged the strategic disinvestment of HLL as a whole rather than separately in parts, where Interested Bidders can bid individually or in consortium," the government said in the information memorandum.

The Department of Investment and Public Asset Management (DIPAM) had invited preliminary bids for selling the government's 100% stake in the health sector Central Public Sector Enterprise (CPSE) under the administrative control of the Union Ministry of Health and Family Welfare.

NEW ENSIGN OF THE INDIAN NAVY UNVEILED

INS Vikrant is a reflection of self-reliant India: PM

SUSHANT KULKARNI
Kochi, September 2

COMMISSIONING THE COUNTRY'S first indigenously designed and built aircraft carrier into the Indian Navy, Prime Minister Narendra Modi said on Friday that INS Vikrant is "not just a warship" but "proof of hard work, ingenuity, influence and commitment of 21st century India," a unique reflection of India becoming self-reliant.

In his address from the Cochin Shipyard in Kochi where a new ensign of the Indian Navy was also unveiled — it depicts the royal seal of Chhatrapati Shivaji Maharaj and celebrates his naval prowess — Prime Minister Modi said a "burden of slavery" and a symbol of the country's colonial past has been done away with, befitting India's rich maritime heritage. "Changing global dynamics have made the world multipolar. That is why it is critical to keep a futuristic

viewpoint towards global dynamics. For example, the area of the Indo-Pacific and Indian Ocean Region were always neglected in the past. But they are now a strategic priority for our country. That

is why we are working towards upgrading our naval capabilities and increasing the budget outlay for the Navy," he said. "Vikrant is not just a warship, it's proof of hard work,

ingenuity, influence and commitment of 21st century India. Vikrant has filled the country with fresh confidence. Until now, only developed countries were able to develop aircraft carriers. By entering this league today, India has taken a step towards becoming a developed country," he said.

The Prime Minister referred to "boundless female power" becoming "the lofty identity of the new India" and said, "Just as there are no boundaries for the waves, there will be no boundaries or restrictions for the daughters of India."

"As Vikrant is deployed for maritime security, many women will also be deployed on it.

"I have been told that there are around 600 women officers in the Navy and now all the branches have been opened for the entry of women. Like the Navy, other services are also inducting women in their combat arms," he said.

India to expedite product safety approvals; Apple and Samsung could benefit

MUNSIF VENGATTIL
New Delhi, September 2

INDIA WILL TRY out a strategy of parallel testing to speed up safety approvals for new electronic devices, an industry group told Reuters on Friday, a move that could boost device launch plans by the likes of Samsung and Apple.

The move comes as India scrambles to remove bottlenecks faced by businesses, with Prime Minister Narendra Modi bullish on an electronics hardware manufacturing industry his government targets to be worth \$300 billion by 2026.

The plan to test different components of the devices simultaneously looks set to cut as much as five to eight weeks from the 16 to 21 now often needed to test and certify products ranging from wireless earbuds to smartphones.

"For industry, it is directly linked with ease of doing business; for consumers, this will result in faster access to the latest products," the group, MAIT, said in its statement.

Firms such as Apple, Samsung and Xiaomi are among its members, along with global and domestic firms operating in India's electronics, telecom and IT sector.

To trim the time required, the group added, the testing agency, the Bureau of Indian Standards, "has agreed to a pilot project where some identified electronics hardware products shall be undergoing parallel testing".

Executives say India's cumbersome testing process can take 16 weeks for a new Apple AirPods model, for example, as the charging case and its components must first secure clearance before the earbuds are assessed.

For a smartphone and its parts, the procedure could take an average of up to 21 weeks.

The pilot decision followed a closed-door meeting on Wednesday between officials of India's information technology ministry, BIS, MAIT and executives of firms such as Apple and Samsung, a source with direct knowledge of the matter said. —REUTERS

The man who turned around Reckitt Benckiser

LAXMAN NARASIMHAN, CEO, RECKITT BENCKISER; CEO-DESIGNATE, STARBUCKS

ANDREA FELSTED

LAXMAN NARASIMHAN CLEANED up Reckitt Benckiser Group but he's not staying around to admire the shine at the maker of Dettol and Durex.

After three years as chief executive officer, he's decided step down on September 30. It's an unexpected move. On Thursday morning, the company said Narasimhan will return to the US for family reasons.

Later in the day came an announcement that he will become the new CEO of Starbucks.

Senior independent director and former British American Tobacco CEO Nicandro Durante will step into the role on an interim basis while Reckitt searches for a successor.

The departure is a blow to the consumer goods company.

Narasimhan inherited a mess from predecessor Rakesh Kapoor, under whom Reckitt had acquired Mead Johnson for \$17 billion in 2017.

That stretched the company thin, leaving it vulnerable to a series of blunders, including a cyberattack.

Narasimhan quietly set about restructuring Reckitt, most notably selling off its Chinese infant formula business for \$2.2 billion.

His efforts were beginning to pay off when his departure was announced.

Reckitt was one of the few consumer goods companies in the most recent earnings season to upgrade its outlook for both sales growth and profitability.

So, a new CEO will inherit a company with the heavy lifting mostly done.

In some ways, that will make the job trickier.

The new boss won't have the clear to-do list Narasimhan had when he arrived, allowing him to tick off problems as he solved them one-by-one. Instead, the new CEO will have to deliver on the strategy set out by Narasimhan — and not mess up.

One item outstanding is the \$7 billion disposal of the rump of Mead Johnson, which sells brands, including the infant formula Enfamil.

But perhaps the biggest loose end is a possible merger with Haleon, the consumer-health business spun out of GSK in July.

Narasimhan's credibility,

along with Reckitt's value, had risen just as Haleon's shares had shrunk, strengthening Reckitt's hand.

There is another M&A possibility: Johnson & Johnson is spinning off its consumer operation.

The new CEO will be able to make his or her mark by deciding where Reckitt fits in an industry rapidly reconfiguring itself.

The challenge is to make the right strategic calls and, if Reckitt does a deal, expertly manage the integration process.

When it comes to Haleon, time may be on the new leader's side.

The litigation against makers of Zantac, including GSK, are scheduled to go to trial this year, with proceedings lasting into 2023.

Once these are finished, Haleon — and Reckitt — will have a better idea of the severity of any exposure to Zantac.

That timeframe could give the new CEO a chance to settle in and build credibility with investors.

Narasimhan was fond of saying that Reckitt was a good house in a great neighborhood, with the potential to be a great house again.

Now, someone else will be moving in, and must embark on the next phase of the makeover.

The great Indian student exodus

ANVITII RAI
New Delhi, September 2

DATA FROM THE US State department showed that Indian students got twice as many visas than Chinese students this year, with the Indian numbers seeing an 89% increase. One would expect that this could be a case of "revenge studying" post-pandemic, not unlike the trend of "revenge travel" that has driven up tourist numbers worldwide and caused a huge demand on the travel sector. However, the seeds of this exodus were planted a while ago.

Reasons to pursue education abroad, apart from prestige and better prospects, are several, according to experts and university officials. Talking to FE, Vibha Kagzi, CEO, ReachIvy.com, a higher edu-

cation consultancy firm, said that one interesting reason that emerged was the way the pandemic was handled in the country vis-à-vis abroad, and that left quite a chunk of the population jaded.

In Kagzi's words, "While people were struggling for vaccines here, abroad, students had easy access to vaccination camps set up on university campuses." Apart from the post-pandemic spurt in numbers, she also mentioned that a wider variety of courses

was available, and in fact, students from the middle-income families were driving up the numbers, as opposed to the upper crust, as one would expect.

ReachIvy.com, she says, experienced a 65% increase in demand this year.

Amit Singh, founder, UniScholarz, a Mumbai-based consultancy firm, said that even pre-Covid, due to the Trump administration's policies, US universities became difficult to access, and subsequently, the interest shifted to the UK, Australia, and Canada. Both Kagzi and Singh concur that a lot of students also go abroad owing to the increasingly competitive nature of entrance exams. Singh says, "This group of students automatically becomes a feeder to the study abroad system."

Yet another reason that the consultants presented was the growing number of international schools in the country, which follow curriculum aligned with international standards. Kagzi stated, "Students are keener to enroll in foreign universities coming out of these schools as they feel they do not have much to do with the institutes that still follow Indian standards, and thus, parents are also keen to send their children abroad for undergraduate courses."

Both also pointed out a similar, but interesting insight — Indian students still majorly stick to the technical and finance courses like engineering and MBA, although they were also increasingly opting for up-and-coming fields in these areas, such as Data Science, IoT, and Cybersecurity.

EXPLAINER

Hasina's visit may open up fresh trade window

BANGLADESH PRIME MINISTER Sheikh Hasina will visit India from September 5 to 8, her first visit in almost three years. She is scheduled to meet Prime Minister Narendra Modi and President Droupadi Murmu, among others. **Banikankar Pattanayak** dwells on the significance of the visit for bilateral ties.

KEY EXPORTS TO BANGLADESH (\$ billion, in FY22)

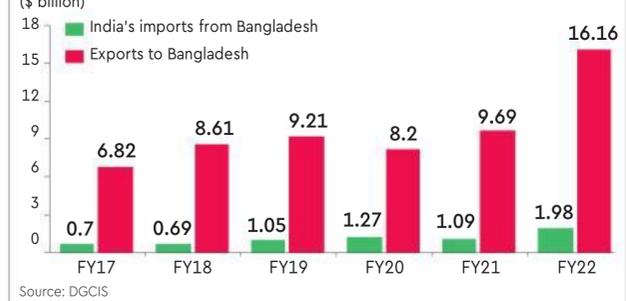

What's on agenda?

Water agreement, trade, grain supply and financial assistance may feature prominently in bilateral talks during the visit. Both sides will likely ink an agreement on interim sharing of water of the Kushiara river. Hasina, accompanied by a business delegation, will also attend a CII event.

Why is the visit important from trade point of view?

Bangladesh, India's fourth-largest export destination, is staring at a foreign exchange crisis. Against this backdrop, the visit may prompt both the sides to explore the settlement of at least a part of bilateral trade in the rupees under a mechanism suggested by the RBI last month, said analysts. Both the countries will also seek to boost trade ties.

BILATERAL TRADE (\$ billion)

Is an FTA in the offing?

While no such deal is expected anytime soon, both the countries want to further deepen their trade engagement. Bangladesh has already expressed interest to clinch an FTA with India in a year. Currently, Bangladesh enjoys duty-free access to the Indian market on most goods under the SAFTA (South Asia Free Trade Agreement). India is also part of the APTA, under which it had extended tariff concessions on 3,142 items to members, including Bangladesh, in 2018.

What caused the forex problem in Bangladesh and will it seek India's help?

Bangladesh's foreign exchange reserves recently dropped below the \$40-billion mark for the first time in two years. A massive trade deficit of \$33 billion in 2021-22, caused by a spike in global commodity prices in the wake of the Ukraine war, hit the net-importing nation and stoked the forex problem. Dhaka has reportedly sought a \$4.5-bn loan from the IMF to tackle the crisis. The visit will be a good opportunity for Bangladesh to explain its expectations from India in this juncture.

What is the strategic significance of the visit?

China has been cosying up to Bangladesh in recent years, especially after its clashes with India on the borders. Bangladesh finance minister AHM Mustafa Kamal has reportedly warned developing nations from taking loans from China through its Belt and Road Initiative (Dhaka joined the BRI in 2016). But given Beijing's growing economic clout, it would be hard for Dhaka to counter any negative influence without India's help.
